Close

4. Open MetaMask wallet - NFT tab and click on Import NFT button

5. Copy and paste the contract address and id values. Click "Import"

6. NFT has been successfully added to your wallet!

Sometimes errors may occur on the Metamask side when importing NFTs. In this case, try the following:

1. Update Metamask app to the latest version
2. Change network. For example, select Ethereum Main Network, then change the network back to BNB Smart Chain
3. Try adding NFT again
